

Correction to previous information regarding index for XACT OMXS30 (UCITS ETF)

In the customer letter sent to you earlier in June, we informed you of a change to the index and the name of the fund as of 1 July 2021.

In the description of the fund's new index, the customer letter incorrectly stated that the sustainability requirements include the inclusion and exclusion of companies. The correct information is that the sustainability requirements in the index include the exclusion of companies.

The correct information is provided below:

The fund is an exchange-traded index fund and has the objective of tracking the performance of the OMX Stockholm 30 ESG Responsible Index™ (OMXS30ESG) as closely as possible. The index aims to reflect the 30 most traded equities based on value in Nasdaq Stockholm. Given that the index includes sustainability requirements, companies involved in verified violations of international norms and companies that are active within controversial sectors are excluded from the index. Information about the fund's sustainability work is provided in the Prospectus at www.xact.se or www.handelsbanken.se/fonder.

Sincerely,

Handelsbanken Fonder
