

## Global Dynamisk 90 – information on protective floor and name change

We have changed the fund rules for Handelsbanken Global Dynamisk 90 on June 8, 2022. You do not need to take any action as a result of this information.

### The protective floor may be raised during the year

Previously, a new protective floor was set at the outset of each year based on 90% of the net asset value as of the year-end of the preceding year, which was then applicable throughout the entire calendar year.

To enable an increase to the protective floor at other times in addition to year-end, we have taken the decision to amend the fund rules. As a result of the change, in the event the unit price in share class A1 SEK increases more than 10% since the calculation of the applicable protective floor, a new protective floor will be set for all of the share classes in the fund. The protective floor will be applicable until the following year-end unless a new protective floor is set prior to this period.

As previously, a new protective floor equivalent to 90% of the net asset value as of the year-end of the preceding year will be set at the outset of each year. The impact of the change means that the protective floor may also be raised during the year, which can be beneficial during strong market performance.

As described previously in the fund rules, the asset management model and the establishment of a protective floor does not constitute a guarantee for returns, growth or capital protection, rather shall be viewed as a rules-based approach to reduce the risk for losses in the fund.

### Name change

In conjunction with the change, the name of the fund has been changed to:

*Handelsbanken Global Dynamisk Strategi*

### Additional information

The new fund rules have been approved by the Swedish Financial Supervisory Authority and entered into force on June 8, 2022. The fact sheet, prospectus and fund rules are available at [handelsbanken.se/funds](https://handelsbanken.se/funds). Information regarding the applicable protective floor for each share class is also available on the website.

Sincerely,  
Handelsbanken Fonder
